SUMMARY

See below for detail and source

- In Gaza, Palestinian health authorities reported 73,356 people killed and 174,185 injured since 7 October 2023; access constraints and continuing insecurity remain central humanitarian concerns. [WAFA](#) (Palestinian official) [OCHA oPt](#) (UN/humanitarian)
- OHCHR recorded at least 293 civilian deaths and 1,990 injuries in Ukraine in June, and said the vast majority occurred in government-controlled areas. [OHCHR Human Rights Monitoring Mission in Ukraine](#) (UN agency)
- Humanitarian pressures remain acute in Sudan and Myanmar: current reporting highlights child casualties in North Kordofan and more than 16 million people needing assistance in Myanmar. [UNICEF](#) (UN agency) [OCHA Myanmar](#) (UN/humanitarian)

MIDDLE EAST

Gaza Strip

Palestinian health authorities reported on 2 August that 73,356 Palestinians had been killed and 174,185 injured in Gaza since 7 October 2023. They also reported 1,230 deaths and 4,076 injuries since the October 2025 ceasefire; these are health-authority figures reported through a Palestinian official outlet. [WAFA](#) (*Palestinian official*)

UNRWA's 30 July situation report, citing Health Cluster reporting, recorded a slightly earlier cumulative total through 24 July and described a deteriorating operating environment, including constraints on fuel, spare parts and water production. The different dates and reporting channels should be kept in view when comparing cumulative figures. [UNRWA](#) (*UN agency*)

West Bank

According to OCHA figures cited by UNRWA, 1,122 Palestinians, including at least 246 children, were killed in the occupied West Bank, including East Jerusalem, between 7 October 2023 and 24 July 2026; 76 of those deaths occurred in 2026 through that date. [UNRWA](#) (*UN agency*)

The latest OCHA update also documented continued settler violence, damage and displacement pressures, while a Palestinian official report described a recent incident near Arraba in which tobacco crops and vehicles were targeted. [OCHA oPt](#) (*UN/humanitarian*) [WAFA](#) (*Palestinian official*)

Lebanon

Hostilities remain active in southern Lebanon. OCHA reported persistent daily airstrikes, artillery shelling and demolitions, 4,333 deaths and 12,236 injuries since 2 March, and 360,132 people still displaced as of 29 July. [OCHA Lebanon](#) (*UN/humanitarian*)

Iran–US Developments

The UN reported renewed strikes in Iran's Fars, Hormozgan, Bushehr and Khuzestan provinces amid the regional escalation. It cited Iranian Ministry of Health figures of at least 60 people killed and 670 injured since hostilities escalated again a month earlier;

those figures are attributed to the ministry and are not presented as independently verified totals. [United Nations Office of the Spokesperson for the Secretary-General](#) (*UN agency*)

EASTERN EUROPE

Russia–Ukraine Conflict

OHCHR recorded at least 293 civilian deaths and 1,990 injuries in Ukraine in June 2026, the highest monthly total since April 2022. It recorded 2,226 civilian casualties in territory controlled by the Government of Ukraine and 57 in territory occupied by the Russian Federation, while noting that verification in occupied areas is constrained by access.

Russian authorities reported that two civilians were killed and others injured after Ukrainian drone debris struck Engels and Saratov, alongside claims about intercepted drones. This account is attributed to Russian state media and has not been independently verified here. [RT](#) (*Russian state*)

AFRICA

Sudan

Fighting continues to reshape the front line around Kordofan. ACLED has published recent analysis on SAF operations north of El Obeid and violence near the Chadian border; it characterises the conflict as a struggle between the SAF and RSF that began in April 2023. [ACLED](#) (*conflict-data provider*)

UNICEF reported at least 23 children killed and 25 injured in North Kordofan in the two months after conflict intensified around Al Obeid, and at least 330 children killed or injured nationwide in the first half of 2026. The UK Government notes that conflict-death estimates range widely from 20,000 to 150,000 and should be treated as indicative undercounts. [UNICEF](#) (*UN agency*) [UK Visas and Immigration](#) (*Western government*)

ASIA

Myanmar

OCHA estimates that more than 16 million people need humanitarian assistance in Myanmar and nearly 3.8 million are displaced. It reported that recent hostilities in Magway alone displaced more than 100,000 people and that 43 per cent of the US\$890 million humanitarian requirement had been received by mid-year. [OCHA Myanmar](#) (UN/humanitarian)

ACLED reports that intensified lethal bombings, targeted arson, surveillance and arrests are affecting civilians in military- and resistance-controlled areas, while placing Myanmar among the countries with the most intense political violence globally. [ACLED](#) (conflict-data provider)
